FRONTEND SOFTWARE ENGINEER

Dynamic web and software developer dedicated to clean, object-oriented code and good design practices. Proficient in JavaScript, TypeScript, React, Java, SQL, and NoSQL. Adaptable and collaborative team player experienced in testing, integration of APIs and writing clean, well-documented code. Passionate about collaboration, identifying opportunities, and optimizing application performance.

SKILLS

JavaScript • TypeScript • React • Java • Python • SQL • NoSQL • HTML/CSS • Node.js • Express • Next.js • .NET • Python • RESTful API • Github • Postman • Docker

PROJECTS

Balancer - 2023 (**Code For Philly** || *React, Node.js and Python*)

- Increased overall app performance by leading the implementation of a user feedback component that utilized Jira ticketing systems.
- Strengthened user experience by working with UX/UI and backend teams to meet user needs while maintaining the integrity of the backend data handling.

Create-Typescript-App - 2023 (**Open Source** || *Typescript, Node*)

- Contributed to functionality by refactoring existing TypeScript codebase to incorporate third-party APIs for packaging user data.
- Increased durability and code efficiency by writing tests using Jest and Vitest and contributing to technical documentation.

Dream-with-AI - 2023 (*React, Next.js, SQL, OpenAI API, Langchain*)

- Crafted an engaging and scalable user interface with interactive CSS elements through the integration of APIs for AI interactivity, database management, and data analysis.
- Enhanced app performance by offloading the most expensive functions onto a virtual machine that handles timeouts and error handling.

Kristo's Closet - 2023 (*Java, Spring Boot, SQL, Javascript*)

- Boosted server efficiency by building a tailored production environment in a virtual machine for seamless backend deployment.
- Created an adaptable model for data and image organization through the integration of React Redux-Toolkit.

WORK EXPERIENCE

Self-Employed

August 2021 - 2023

Home Rehab and Real Estate Development

- Successfully converted unusable attics and basements into comfortable living spaces by quickly learning structural engineering and framing principles, demonstrating an aptitude for learning and practical application.
- Ensured sale closings by coordinating with contractors, real estate agents and prospective buyers.

CIC Coworking

April 2018 - August 2021

Client Support Manager

- Executed agile project management practices to drive project completion and maximize occupancy and space usage by 10%, optimizing workspace efficiency.
- Implemented systems that streamlined team response and addressed client's operational needs, resulting in increased professional and administrative support for tech-related inquiries and requirements.

Big Muddy Records

May 2004 - April 2018

Operations Manager

- Enhanced proficiency in graphic and web tools, including HTML and CSS, by successfully completing multiple branding campaigns, furthering the mission of fostering artist growth.
- Optimized product development and quality assurance by collaborating with third-party distributors on content delivery and metadata management.
- Managed timelines and facilitated seamless collaboration across multiple teams for festivals, events, recording sessions, tours, and video shoots.
