FRONTEND SOFTWARE ENGINEER

Dynamic software developer proficient in Java, JavaScript, Typescript, React, SQL, and NoSQL. Collaborative team player experienced in driving product development processes, optimizing quality standards, and implementing Agile procedures. Proficient in product risk management, documentation, and post-production activities. Passionate about contributing to challenging projects, identifying process blocks and improving systems, and optimizing application performance.

SKILLS

JavaScript • TypeScript • React • Java • SQL • NoSQL • HTML/CSS • Node.js • .NET • RESTful API • Github • Postman • Docker

PROJECTS

Fullstack Dream Analysis App - 2023 (*Java Spring Boot & SQL*)

- Enhanced functionality by refactoring existing codebase and implementing APIs to transform an unfinished inventory application into a rebranded and innovative solution.
- Improved communication between front-end and back-end by debugging and simplifying controller logic.

Fullstack Closet App - 2022 (*React, Node.js and Express.js*)

- Optimized performance and streamlined data management through the integration of Redux Toolkit.
- Boosted server efficiency by crafting a tailored production environment for seamless backend deployment.

WORK EXPERIENCE

Self-Employed

August 2021 - Current

Home Rehab and Real Estate Development

- Successfully converted unusable attics and basements into comfortable living spaces by quickly mastering structural engineering and framing principles, demonstrating an aptitude for learning and practical application.
- Ensured sale closings by coordinating with contractors, real estate agents and prospective buyers.

CIC Coworking

April 2018 - August 2021

Client Support Manager

- Executed agile project management practices to drive project completion and maximize occupancy and space usage by 10%, optimizing workspace efficiency.
- Implemented systems that streamlined team response and addressed client's operational needs, resulting in increased professional and administrative support for tech-related inquiries and requirements.

Big Muddy Records

May 2004 - April 2018

Operations Manager

- Enhanced proficiency in graphic and web tools, including HTML and CSS, by successfully completing multiple branding campaigns, furthering the mission of fostering artist growth.
- Optimized product development and quality assurance by collaborating with third-party distributors on content delivery and metadata management.
- Managed timelines and facilitated seamless collaboration across multiple teams for festivals, events, recording sessions, tours, and video shoots.

EDUCATION

LaunchCode Coding Bootcamp

Web and App Development With Java, Javascript, Typescript, Angular and SQL

Webster University

St. Louis, MO

B.S. Business Administration & Management
